8. INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

(i) Structure and Operation

Current legislation defines the structure of Higher Education and regulates operation issues of Higher Education to the direction of an extended participation, greater transparency, accountability and reinforcement of the self-government of institutions.

There are also state-owned institutions of Vocational Higher Education that are monitored by other Ministries, offering programmes of professional training the duration of which ranges from two to three years.

(ii) Access (or admission)

All graduates of Lyceum (General and Vocational) have the right to be admitted to Higher Education.

The Access (or admission) system to the Higher Education Institutions complies with the principle *numerus clausus*, the candidates' preferences of Schools / Departments and with candidates' General Degree of Access. Certain Schools require candidates be examined on special subjects (e.g. Drawing for Architecture) or do practical tests.

(iii) Qualifications of the Studies Programme

The completion of the Studies Programme of the Schools of the Higher Education Institutions leads to the award of the corresponding Degree/Diploma, which leads to the job market, since it provides the graduate with the accessibility to a Postgraduate Studies Programme; that is, to the second cycle of studies leading to a Master's Diploma (equal to a Master's Degree (MSc, MA or an MBA), and to the third cycle of studies leading to Doctoral Diploma (i.e. a Ph.D. degree or a Doctorate). The Degree/Diploma is a qualification that is granted upon the completion of the studies of the first cycle and lasts from four to six years, depending on the field.

Current legislation determines the Quality Assurance for Higher Education and the Credit Transfer and Accumulation System, the framework of processes and criteria for the evaluation of departments of Higher Education Institutions (A.E.I.) as well as the certification of students' studies. These measures aim to enhance students' mobility and contribute to the creation of the European Space for Higher Education, as defined by the Bologna Process.

There is also a detailed description of Greek educational system in the National File that was composed by the Greek Service of European Network for Education EURYDICE
